

TABLE OF CONTENTS

No. 1 January–February 1991

Issued 26 February 1991

Using electron microscopy to study plant pathogenic fungi

1 C. W. Mims

Charles Maye Wilson 1916–1989

20 C. J. Lucarotti and I. K. Ross

Effect of low temperature shock treatment on sporophore initiation, lipid profile and nutrient transport in *Lentinula edodes*

24 C. H. Song, K. Y. Cho, and N. G. Nair

Studies on *Marasmius* from eastern North America. IV. Additions to sect. *Sicci*.

30 D. E. Desjardin

Resistant body formation in *Neocallimastix* sp., an anaerobic fungus from the rumen of a cow

40 D. A. Wubah, M. S. Fuller, and D. E. Akin

The challenge of the individualistic mycelium

48 A. D. M. Rayner

Endophyte-host associations in forage grasses. XIV. Primary stromata formation and seed transmission in *Epichloe typhina*: Developmental and regulatory aspects

72 J. F. White, Jr., A. C. Morrow, G. Morgan-Jones, and D. A. Chambless

Intraspecific hyphal interactions among aquatic hyphomycetes

82 F. Bärlocher

Endophytic *Leptostroma* species on *Picea abies*, *Abies alba*, and *Abies balsamea*: A cultural, biochemical, and numerical study

89 F. Sieber-Canavesi, O. Petrini, and T. N. Sieber

Effects of mycorrhizal fungus species and metalaxyl application on microbial suppression of mycorrhizal symbiosis

97 B. A. D. Hetrick and G. W. T. Wilson

Brief Articles

Dictyocoproetus, a new genus of the Pyronemataceae with reticulated ascospores

103 J. C. Krug and R. S. Khan

Molecular relatedness between the basidiomycetous yeasts *Sporidiobolus ruinenii* and *Sporobolomyces coprophilus*

107 C. P. Kurtzman and J. W. Fell

Effects of various culture media, antibiotics, and carbon sources on growth parameters of *Acremonium coenophialum*, the fungal endophyte of tall fescue

110 D. D. Pope and N. S. Hill

Instructions to Authors

116

Notice

James W. Sinden Scholarship

119

No. 2 March–April 1991

Issued 26 April 1991

Trichothecene chemotypes of three *Fusarium* species

121 J. D. Miller, R. Greenhalgh, Y. Z. Wang, and M. Lu

Differences in cultural characters and electrophoretic patterns among sibling species in four different species complexes (Corticaceae, Basidiomycetes)

131 N. Hallenberg and E. Larsson

Effect of nutrient supplementation on flavor, quality, and shelf life of the cultivated mushroom, *Agaricus bisporus*

142 J.-L. Mau, R. B. Beelman, G. R. Ziegler, and D. J. Royse

119

No. 2 March–April 1991

Issued 26 April 1991

Trichothecene chemotypes of three *Fusarium* species

121 J. D. Miller, R. Greenhalgh, Y. Z. Wang, and M. Lu

Differences in cultural characters and electrophoretic patterns among sibling species in four different species complexes (Corticaceae, Basidiomycetes)

131 N. Hallenberg and E. Larsson

Effect of nutrient supplementation on flavor, quality, and shelf life of the cultivated mushroom, *Agaricus bisporus*

142 J.-L. Mau, R. B. Beelman, G. R. Ziegler, and D. J. Royse

Gilbertellaceae, a new family of the Mucorales (Zygomycetes)

150 G. L. Benny

Growth and stromata production of hypovirulent and virulent strains of *Cryphonectria parasitica* on dead *Quercus rubra* and *Acer rubrum*

158 R. E. Baird

Formation of K₂-bodies in primary cysts of *Saprolegnia ferax*

163 L. P. Lehnen, Jr., and M. J. Powell

Labyrinthula zosterae sp. nov., the causative agent of wasting disease of eelgrass, *Zostera marina*

180 L. K. Muehlstein, D. Porter, and F. T. Short

Morphology and taxonomy of species of *Phomopsis* on *Asparagus*

192 F. A. Uecker and D. A. Johnson

Cryptodiaporthe corni (Diaporthales), cause of Cryptodiaporthe Canker of Pagoda Dogwood

200 S. C. Redlin and A. Y. Rossman

Didymium iridis mating systems: Partial compatibility between mating series

210 J. D. Clark, O. R. Collins, and H.-C. Tang

Orphella hiemalis: A new and rare trichomycete occurring in winter-emerging stoneflies (Plecoptera, Capniidae)

214 R. W. Lichtwardt, S. W. Peterson, and M. J. Huss

Brief Articles

Basidiocarp formation in *Asterophora lycoperdoides*

220 D. McMeekin

Camillea: New combinations and a new species

224 J. D. Rogers, T. Laessøe, and D. J. Lodge

Hydrocarbon utilization by higher marine fungi from diverse habitats and localities

227 P. W. Kirk, B. J. Dyer, and J. Noé

An undescribed species of *Vermispora* from India

230 M. Rajashekhar, D. J. Bhat, and K. M. Kaveriappa

Fatty acid esterase production by ectomycorrhizal fungi

233 B. A. Caldwell, M. A. Castellano, and R. P. Griffiths

Effect of methionine and 1-aminocyclopropane-1-carboxylic acid on ethylene production by *Laccaria bicolor* and *L. laccata*

236 W. H. Livingston

Book Reviews

242

Briefly Noted

248

No. 3 May-June 1991

Issued 25 June 1991

Comparison of white- and orange-spored *Peridermium harknessii* in native North Dakota *Pinus ponderosa*

251 J. A. Walla, G. A. Tuskan, and J. E. Lundquist

Effects of soil moisture and temperature on the saprophytic ability of *Trichoderma harzianum*

257 D. M. Eastburn and E. E. Butler

Physicochemical properties of cell surfaces from the different developmental stages of the entomopathogenic hyphomycete *Nomuraea rileyi*

264 J. C. Pendland and D. G. Boucias

Compatibility and population studies of three species of *Tremella*

273 L. C. Hanson and K. Wells

Fungitoxic effects of *Balansia cyperi*

288 M. E. Stovall and K. Clay

Media for selective isolation of hymenomycetes

296 James J. Worrall

Studies on *Caecomyces communis*: Morphology and development

303 D. A. Wubah, M. S. Fuller, and D. E. Akin

Improved media for selecting nitrate-nonutilizing mutants in *Aspergillus flavus*

311 P. Bayman and P. J. Cotty

Colonization of autumn-shed leaves by four aero-aquatic fungi

317 P. D. Premdas and B. Kendrick

Ultrastructure of the septal pore apparatus and early septum initiation in *Auricularia auricula-judae*

322 H. S. Lü and D. J. McLaughlin

Fruiting of hypogeous fungi in Oregon douglas-fir forests: Seasonal and habitat variation

335 D. L. Luoma, R. E. Frenkel, and J. M. Trappe

Cytology and genetics of a sporeless mutant of *Lentinus edodes*

354 K. Hasebe, S. Murakami, and A. Tsuneda

Life history and arthropod dispersal of a coprophilous *Stylopaga*

360 M. Blackwell and D. Malloch

Brief Articles

Reexamination of the taxonomic disposition of and deoxynivalenol production by *Fusarium nivale*
NRRL 3289

367 A. Logrieco, R. F. Vesonder, S. W. Peterson, and A. Bottalico

Dactylaria nervicola sp. nov. and *Exserohilum novae-zelandiae* comb. nov. from Mexico

371 H. P. Upadhyay and R. Mankau

Species of the *Phytophthora megasperma* complex

376 E. M. Hansen and D. P. Maxwell

Book Reviews

382

Briefly Noted

386

No. 4 July–August 1991

Issued 6 September 1991

Ejectosporus, an unusual new genus of Harpellales in winter-emerging stonefly nymphs (Capniidae),
and a new species of *Paramoebidium* (Amoebozoa)

389 R. W. Lichtwardt, S. W. Peterson, and M. C. Williams

Ribosomal RNA sequence variation among interfertile strains of some *Gibberella* species

397 S. W. Peterson and A. Logrieco

Ultrastructure of *Cochlonema odontosperma*, an endoparasite in amoebae

403 M. Saikawa and H. Sato

The spread of VA mycorrhizal fungal hyphae in the soil: Inoculum types and external hyphal
architecture

409 C. F. Friese and M. F. Allen

Halophytophthora kandeliae, a new marine fungus from Taiwan

419 H. H. Ho, H. S. Chang, and S. Y. Hsieh

Evolutionary relationships of *Lentinus* to the Polyporaceae: Evidence from restriction analysis of
enzymatically amplified ribosomal DNA

425 D. S. Hibbett and R. Vilgalys

Comparisons of basidiospores and urediniospores of *formae speciales* of *Cronartium quercuum*

440 E. G. Kuhlman and S. Kaneko

Characterization of three *Tremella* species by isozyme analysis

446 L. C. Hanson and K. Wells

Growth and competition between *Lentinus edodes* and *Trichoderma harzianum* on sawdust sub-
strates

455 E. R. Badham

New records of *Phaeocollybia* from Colombia

464 E. Horak and R. E. Halling

Bremiella sphaerosperma sp. nov. and *Plasmopara borreriae* comb. nov.

473 O. Constantinescu

Effects of grafting on stipe elongation and pileus expansion in the mushroom *Flammulina velutipes*

480 H. E. Gruen

Fluorescent compounds in *Cortinarius speciosissimus*: Investigation for the presence of cortinarins

492 H. Laatsch and L. Matthies

Catatrama (Tricholomataceae), a new genus from Costa Rica

501 A. E. Franco-Molano

Brief Articles

Incidence and diversity of double-stranded RNA in *Lentinula edodes*

506 J. L. Rytter, D. J. Royse, and C. P. Romaine

A new species of *Pestalotiopsis* on *Oenothera*

511 P. Venkatasubbaiah, L. F. Grand, and C. G. Van Dyke

Fungi associated with living leaves of *Nymphaea odorata*

513 L. Bowerman and R. D. Goos

Phytophthora macrochlamydospora, a new species from Australia

517 J. A. G. Irwin

A method for sectioning ascomycete herbarium specimens for light microscopy

520 S. M. Huhndorf

New species of *Oedocephalum* and *Papulaspora* from Japanese soils

524 T. Watanabe

Expression of antifungal activity in agar culture by isolates of grass endophytes

529 M. R. Siegel and G. C. M. Latch

Polish Glomales VIII. *Scutellispora nodosa*, a new species with knobby spores

537 J. Błazkowski

Financial Report

543

No. 5 September–October 1991

Issued 13 November 1991

Portrait

Charles W. Mims

ii

Contents

John Wilburn Paden, 1933–1990

545 B. E. Callan and K. N. Egger

Aleurodiscus gigasporus sp. nov. from China and *A. subglobosporus* sp. nov. from Japan

548 J. Ginns and R. J. Bandoni

The calculation of intraradical fungal biomass from percent colonization in vesicular-arbuscular mycorrhizae

553 R. Toth, R. M. Miller, A. G. Jarstfer, T. Alexander, and E. L. Bennett

Chalciporus piperatoides in North America

559 T. J. Baroni and E. E. Both

Infection of and colony development within leaves of susceptible and resistant pearl millet and two nonhosts by the rust fungus *Puccinia substriata* var. *indica*

565 J. Taylor and C. W. Mims

Laccaria laccata complex in North America and Sweden: Intercollection pairing and morphometric analyses

578 G. M. Mueller

Scanning electron microscopy of Ca-alginate immobilized *Aureobasidium pullulans* grown under various culture conditions

595 F. Federici, M. Petruccioli, R. G. Federici, and M. W. Miller

Substrate utilization in selected *Acremonium*, *Atkinsonella* and *Balansia* species

601 J. F. White, Jr., J. P. Breen, and G. Morgan-Jones

Septoria species on *Cornus*

611 D. F. Farr

Physiological studies of two fungi isolated from *Nymphaea odorata*

624 L. Bowerman and R. D. Goos

Discula destructiva sp. nov., cause of dogwood anthracnose

633 S. C. Redlin

Cell surface characterization of five haustorial mycoparasites with lectin probes

643 M. S. Manocha and A. S. Sahai

Brief Articles

Atelocauda angustiphylloda, n. sp., a microcyclic rust on *Acacia koa* in Hawaii

650 D. E. Gardner

Freeze-drying of fungal hyphae

654 C. S. Tan, J. A. Stalpers, and C. W. van Ingen

Presence of double-stranded RNA in isolates of *Pythium irregulare*

657 G. R. Klassen, W. K. Kim, D. J. S. Barr, and N. L. Désaulniers

Identification of indole-3-acetic acid in *Pichia spartinae*, an ascosporeogenous yeast from *Spartina alterniflora* marshland environments

662 T. Nakamura, T. Murakami, K. Tomita, T. Kitsuwu, M. Saotome, and S. P. Meyers

Organic phosphorus nutrition of some aquatic hyphomycetes

665 K. Suberkropp and E. O. Jones

Purification and properties of glycogen synthase from *Phymatotrichum omnivorum*

669 P. Sangen and M. Gunasekaran

A proposed dispersal mechanism for *Septosperma rhizophydii*

673 M. J. Powell and W. H. Blackwell

Book Reviews

681

Briefly Noted

691

No. 6 November–December 1991

Issued 14 January 1992

William D. Gray, 1912–1990

693 K. L. Braun

Ascospore ultrastructure and development in *Ophiostoma cucullatum*

698 P. W. J. van Wyk and M. J. Wingfield

Fusarium species associated with millet grain from Nigeria, Lesotho, and Zimbabwe

708 N. B. N. Onyike, P. E. Nelson, and W. F. O. Marasas

The Radiomycetaceae (Mucorales; Zygomycetes). III. A new species of *Radiomyces*, and cladistic analysis and taxonomy of the family; with a discussion of evolutionary ordinal relationships in Zygomycotina

713 G. L. Benny and R. K. Benjamin

Speciation in the *Peniophora cinerea* complex

736 G. P. Chamuris

Microcyclic conidiation cycles in *Epichloe typhina*

743 C. W. Bacon and D. M. Hinton

Microcycle conidiation and nuclear behavior during conidiogenesis in *Cercospora kikuchii*

752 F. A. Fernandez, D. A. Glawe, and J. B. Sinclair

Speciation and species concepts in the *Collybia dryophila* complex

758 R. Vilgalys

Histopathology of orchardgrass infected by *Rhynchosporium orthosporum*

774 J. Perez Fernandez and R. E. Welty

Protoplast fusion between mutant strains of *Microsporium gypseum*

779 M. Chadegani and V. Ahmadjian

Taxonomy and morphology of the synanamorphs *Pilidium concavum* and *Hainesia lythri* (Coelomycetes)

787 M. E. Palm

A new species of *Neocosmospora* with a *Penicillifer* anamorph

797 J. D. Polishook, G. F. Bills, and A. Y. Rossman

Viability and stability of yeast cells and filamentous fungus spores during freeze-drying: Effects of protectants and cooling rates

805 J.-F. Berny and G. L. Hennebert

Brief Articles

Gibellula pulchra from a spider (Salticidae) in Nova Scotia, Canada

816 D. B. Strongman

Podospira fibrinocaudata, a new species from California

817 R. S. Khan and J. C. Krug

Occurrence of the glyoxylate cycle in basidiospores of homobasidiomycetes

821 D. G. Ruch, K. W. Burton, and L. A. Ingram

First record and notes on *Pleiochaeta setosa* in Minnesota

826 R. A. Kalis-Kuznia, E. L. Stewart, and R. A. Meronuck

A new homothallic species of *Neurospora* from Hungary

829 J. C. Krug and R. S. Khan

A new species of *Pouzaromyces* from the Hawaiian Islands

832 D. E. Desjardin and T. J. Baroni

A method for rapid small-scale preparation of fungal DNA

835 C.-S. Yoon, D. A. Glawe, and P. D. Shaw

Massarina velatospora and a new mangrove-inhabiting species, *M. ramunculicola* sp. nov.

839 K. D. Hyde
